“ *Jerry worked part time cleaning our offices at Copeland. I had the opportunity to meet a great guy because of that. He came around toward the end of the day and just always found him to be a great guy. I know he cared for his family very much as he talked about his family.*

*My funniest memory was his car would not start one night and his battery needed a jump. I told him I would be glad to help. We went out and I got the cables ready and we could not find the battery. We had to get the manual out and found it under the back seat in the car. We laughed about that for weeks after that happened. My prayers to his family as I know you will miss him.*

“ Bettigene and Christopher,

*I'm very saddened to read of the passing of Jerry. Instant memories started replaying in head, stemming all the way back to my school days. Jerry was one of the few, at the furniture store, that helped shaped me into the man I am today. The situations/stories/arguments we'd find ourselves in on the delivery truck, will stay with me forever. From letting me drive the delivery truck, out on the country roads when I was 14, to making sure "my thirst was quenched by an adult beverage" on long, hot summer days (after 16-18 deliveries that day and before I turned 21), Jerry was there showing me the ropes.*

*Lastly, and most importantly, I remember Jerry's love for both of you! I remember him looking forward to jumping in the car every Wednesday or Saturday afternoon with Bettigene and driving to destinations unknown. And I particularly remember how much he loved he and Christopher's time together fishing! Oh the fishing stories he'd tell!*

*Thinking of the family in this time of sadness and passing along my heartfelt condolences.*

*With love,  
Andy Curtis*
